Eileen,

This email acknowledges your timely submitted response for Tenaris Coiled Tubes, LLC (TCT).

In your response for TCT you presented the following issue:

“We also would like to bring to your attention that Enclosure 2 to the General Notice Letter [GNL] contained some documents that do not appear to be relevant to TCT or its predecessor in interest by merger, Precision Tube. Specifically, two of the bills of lading provided with the enclosure (**Bills of Lading Nos. 71687 and 71686**) list Targa Midstream Services LP as the shipper.”

Apparently someone in my office inadvertently attached copies of **Bills of Lading Nos. 71687 and 71686** to the GNL that was sent to TCT.

For your information I’ve attached two pdf folders.

The first folder contains images of the five documents that should have been attached to TCT’s GNL

The second folder contains images of the five documents that should have been attached to the Targa Midstream Services LP GNL (two of the five images are images of **Bills of Lading Nos. 71687 and 7168**).

As I explained during our phone call earlier this morning, the purpose of the five document copies attached to TCT’s GNL was not meant to associate TCT with a particular quantity of an abandoned hazardous substance at the Site. The purpose of the attached documents was only to identify TCT’s responsibility/liability for part of the abandoned hazardous substances at the Site.

Please feel free to call Amy Salinas (214.665.8063) or myself if you have further questions.

Bob Werner
